

SHUR-GAIN

HANNOVER FARM

Jennifer with dressage horse "Wizard"

For more than 25 years, Jennifer Hrobelsky and her family have operated Hannover Farm, located in picturesque Kemptville, Ontario. Hannover Farm is a fully licensed quarantine facility, providing full importation and shipping services along with sales for top quality Hanoverians from Europe. Hannover Farm also provides quarantine services .

Through the years, Hannover Farm has sold hundreds of Hanoverians and Oldenburgs who have gone on to become champions in their discipline. 2010 has been a fantastic Show Season for Hannover Farm.

A newly imported 5 year old black San Remo stallion Stallone, took both 2010 Canadian Warmblood Horse Breeders Association (CWBHA) and Canadian Sport Horse (CSH) Licensing Champion titles. Stallone's correct movement wowed the crowds and gained many top scores of '9' from the judges. Jennifer's Prix St. George dressage mount, Wizard, also had a successful season by gaining top scores in his division.

The feeding program at Hannover Farm consists of a Shur-Gain Custom 13% Celestial Ration from Rooney Feeds located in Kemptville, Ontario. A Rooney Feeds customer for over 10 years, Jennifer states, "We have used Celestial Feed for many years, on a wide range of horses and the results have been fantastic!" "Their coat, condition and energy level are great!" "With a large importation business, we have seen hundreds of horses over the years and Celestial has really worked for everyone."

Shur-Gain, along with Audrey Rooney and the entire Staff at Rooney Feeds extends warm congratulations to Hannover Farm on their many great achievements. We wish you continued success in the future.
